Azalea-flowered Monkeyflower
*Mimulus aurantiacus var. grandiflorus*

Plant Type: Perennial
Flower Color: Yellow
Flowering Time: May to October
Height: 2 feet
Width: 2 feet
Exposure: Sun-part shade
Water Req.: Occasional - once a month or so, depending on temperatures and wind.
Habitat Value: Hummingbirds, butterflies, bees

Comments and Maintenance:
Small shrubby plant, covered with large, showy flowers all summer long. Flowers attract bees, butterflies, as well as hummingbirds. Mimulus should be pinched back in the fall/winter, to encourage new growth and flowers. Plants will not recover from hard pruning. Deer resistant. This species is found in the Sierra Nevada and Coast Ranges.
